largest medium and heavy truck maker Daimler halved its losses in India, backed by extensive cost cuts and boost to exports. The maker of Bharat Benz truck registered a net loss of ₹109 crore in FY20 versus ₹230 crore loss incurred in FY19. The total revenue of the company slipped 30% to ₹40 crore vs ₹8,299 crore in FY19. At the same time, the company's operating performance and higher responsibility given to India by the global office in terms of development, sourcing and exports, DICV announced close to ₹800 million investment in India in May of 2020 for the period of next three to five years. As a result, the company has achieved 25% cost control on the overheads required in DICV improving operating profit margins by 264 basis points to 6.13% in FY20 compared with the previous fiscal, according to the company's annual filing to the corporate affairs department. The decline in raw material and other expenses was substantial-

dropped 410 basis points to 38.7%. Reviewing FY20, the director's report stated the spread of COVID-19 across the globe and India had contributed to a significant decline in economic activity and financial markets.

DECLINE IN TOTAL REVENUE IN FY20

The company management has considered the possible effect that may result from the pandemic relating to Covid-19 on the carrying amount of the assets of the Company.

"Based on the current indicators of future economic conditions, management expects to record the carrying amount of the assets added the statement.

With volumes coming back to sensitive territory in July to September quarter, Daimler India expects a sustained improvement in its operations.
